STUDENT SYLLABUS MAC 2312(04,05,06 Spring 2008

Time: MWF 11:15am - 12:05pm, Room: LOV 101

INSTRUCTOR: Tianyu Zhang

OFFICE: MCH 405A OFFICE HOURS: 10:00 - 11:30am T, R

OFFICE PHONE: 850-645-7703

Email: zhang@math.fsu.edu (Please say "calculus 2" in the subject heading of your email otherwise I may not read your mail.)

TA: James DeMarco OFFICE: MCH 409C

Email: jdmarco@math.fsu.edu

Blackboard Course Site: http://campus.fsu.edu Up to date course information will be posted here.

ELIGIBILITY: You must have the course prerequisites listed below and must never have completed with a grade of C- or better a course for which MAC 2312 is a (stated or implied) prerequisite. Students with more than four hours of prior credit in college calculus are required to reduce the credit for MAC 2312 accordingly. It is the student's responsibility to check and prove eligibility.

PREREQUISITES: You must have passed MAC 2311 (Calculus I) with a grade of C- or better or have satisfactorily completed at least four hours of equivalent calculus courses.

TEXT: Calculus (Early Transcendentals) (Sixth Edition), by James Stewart

COURSE CONTENT: Chapters 7-11 of the text.

COURSE OBJECTIVES: The purpose of this course is to introduce students to more advanced topics in the calculus and some of their applications. The material in this course should be mastered before the student proceeds to courses for which it is a prerequisite.

GRADING: There will be three unit tests (100 points each), 10 short quizzes, homework, and a cumulative final exam (100 points). Numerical course grades will be determined according to the formula (4.5U+QH+4E)/10 where U = unit test average, QH = score of quizzes and homework (total of 150 points given by your TA), and E = final exam grade. Letter grades will be determined from numerical grades as follows: A: 90-100, B+: 88-89, B: 80-87, B-: 78-79, C: 70-77, C-: 68-69, D: 60-67, F: 0-59. A grade of I will not be given to avoid a grade of F or to give additional study time. Failure to process a course drop will result in a course grade of F.

EXAM POLICY: No makeup tests or quizzes will normally be given. A missed test or quiz may be excused if the student presents sufficient verifiable evidence of acceptable extenuating circumstances. If a test absence is excused, then the final exam will be used for the missing test grade. If a quiz absence is excused, then the next unit test grade will be used for the missing grade. An unexcused absence from a unit test will be penalized. An unexcused absence
from a quiz will result in a grade of zero. Absences from tests and quizzes due to family social events will not be excused. Acceptable medical excuses must state explicitly that the student should be excused from class. Students must take the final examination at the scheduled time.

Students must bring FSU ID cards to all tests.

MATH HELP CENTER: The Math Help Center is located in 110 MCH (Milton Carothers Hall) next door to the Love Building. The hours of operation will be posted there when they are available.

TEST#1: Monday, February 4.

TEST#2: Monday, March 3.

TEST#3: Monday, March 31.

FINAL EXAM: April 21, Monday, 10:00 - 12:00 noon.

HONOR CODE: The Academic Honor System of The Florida State University is based on the premise that each student has the responsibility

1) to uphold the highest standards of academic integrity in the student's own work, 2) to refuse to tolerate violations of academic integrity in the University community, and 3) to foster a high sense of integrity and social responsibility on the part of the University community. Please note that violations of this Academic Honor System will not be tolerated in this class. Specifically, incidents of plagiarism of any type or referring to any unauthorized material during examinations will be rigorously pursued by this instructor. Before submitting any work for this class, please read the "Academic Honor System" in its entirety (as found in the FSU General Bulletin and in the FSU Student Handbook and ask the instructor to clarify any of its expectations that you do not understand.

AMERICAN DISABILITIES ACT: Students with disabilities needing academic accommodations should: 1) register with and provide documentation to the Student Disability Resource Center (SDRC); 2) bring a letter to the instructor from SDRC indicating you need academic accommodations. This should be done within the first week of class.
